

# REGISTERING YOUR COMPANY OWNED MOBILE DEVICE

---

## Mobile device Registration for Company Owned Devices with MobileIron

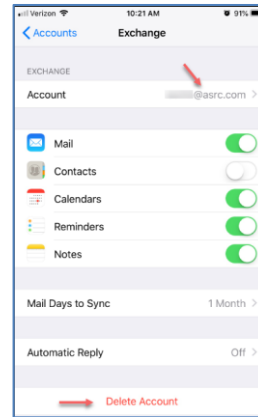

*The MobileIron app (Mobile@Work) connects your iOS device to the MobileIron server and provides useful features that enable you to access company email, network services, applications and content while ensuring corporate data is protected. Screen shots may vary depending on the device model or iOS version.*

### You will need:

- Your Company owned mobile device (iPhone, iPad)
- **Back up your device**<sup>1</sup>. It is always a good practice to back up your device prior to making changes. We do not anticipate any issues, but technology can be unpredictable at times.
- Contacts- **Verify that your contacts are being synced** to an external resource like iCloud.
  - Launch “Settings”, tap on “Your name” and select iCloud
  - Verify the iCloud account is set up and that “Contacts” is turned ON
- If you previously had MobileIron installed, please remove all associated application from your device before proceeding.
- If you currently have corporate email configured on your device, please remove it by Clicking “**Settings**” then “**Accounts & Passwords**”. Under the Accounts Section, Click the account labeled “**Exchange**” and verify that this is your company email address. After confirmation Click “**Delete Account**”. All data contained within this account is stored on the company server and will be restored at the completion of this process.

---

<sup>1</sup> Refer to your device instructions to back-up your device. You may need to enter your passcode to initiate the back-up.

**PLEASE BACK UP YOUR DEVICE  
BEFORE REGISTRATION**

*For best results, ensure your device is fully charged and your cellular or Wi-Fi connection is stable.*

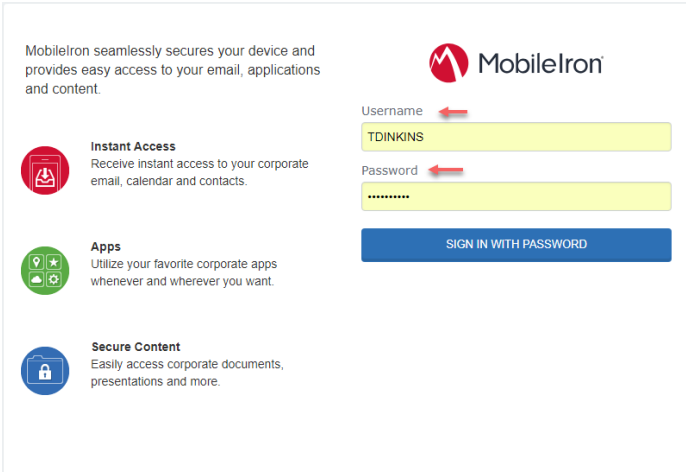

**PLEASE CONTACT THE SERVICE DESK FOR ASSISTANCE IF YOU  
HAVE ANY ISSUES DURING REGISTRATION OR ACCESSING  
CORPORATE RESOURCES.**

Review the “**IT Acceptable Use Policy**” and select **Accept** to continue the installation process. This policy can also be viewed within Compliance Bridge.

Before you continue you must read and accept the Terms of Service.

### INFORMATION TECHNOLOGY (IT) ACCEPTABLE USE POLICY

I. **POLICY**

-

A. **Purpose:** This policy represents a brief overview of the responsibilities of Company users with respect to the Company's Information

Decline Accept

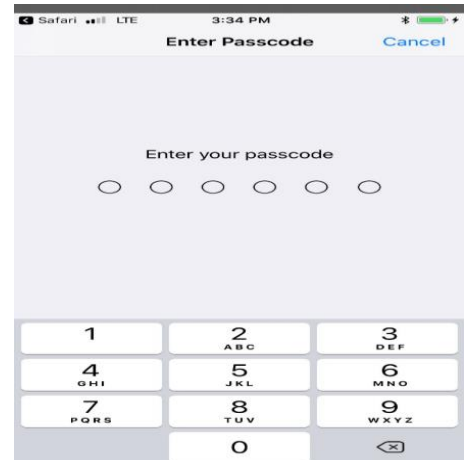

Click **Allow** to authorize configuration profiles installation on your device.

When the “Install Profile: window appears, select “**Install**”.  
(Install option may be located at different location depending on your device)

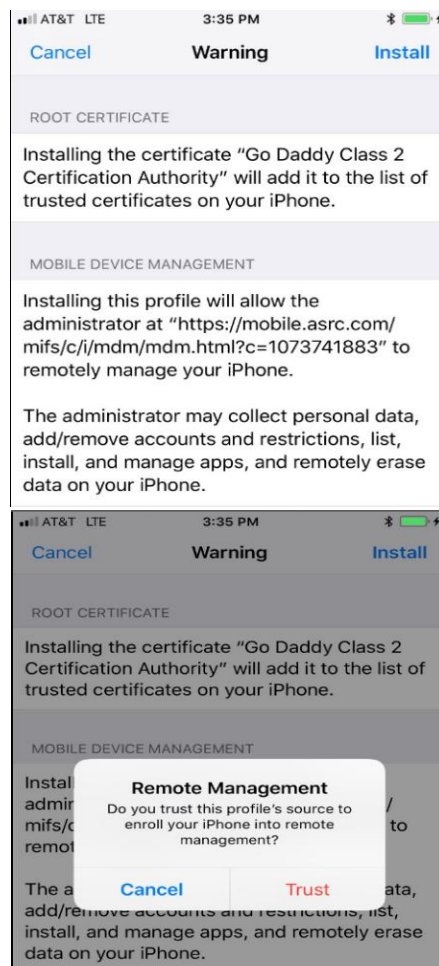

When the “**Device Passcode**” window pops up, please enter your current passcode. If you do not currently have a passcode, you will need to create one. ASRC security guidelines require that your passcode contain a minimum of four characters. If your existing passcode meets these requirements, enter it in the passcode field.

Choose “**Install**” when you are presented with the “Install Profile” dialog box.

Click **Install** in the upper right hand corner to install the Certificate.

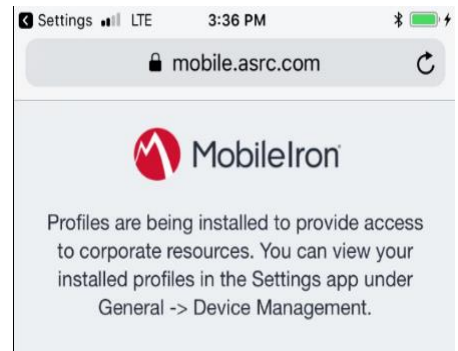

Choose “**Trust**” in the “Remote Management” dialog box. If you are presented with a “**Warning**” screen, choose the “**Install**” option (Install option may be located at different location depending on your device) to install the certificate. This will generate a security key.

Upon completion of the certificate installation, the “**Profile Installed**” screen will appear. Please choose the “**Done**” option.

Click the **Home** button. The following applications will be downloaded to your device. The time in which this occurs may vary depending on your internet connection.

When prompted to install the following application, Choose “**Install**” to begin the installation.

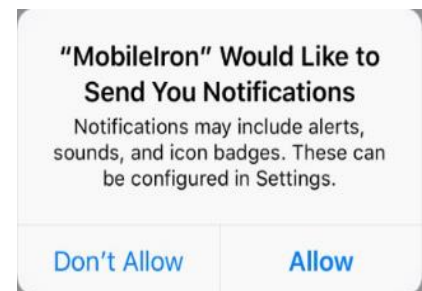

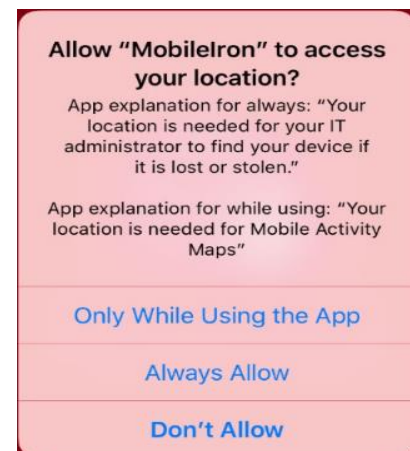

Return to your home screen. The following is the only application installed during the installation process. **Launch Mobile@Work at least once to complete registration.** Failure to do will result in future problems

Click **Allow** to all of the MobileIron application popup's requesting to send Notifications. These will be visible in the notification screen on your device.

If you would like to be able to locate your device using the **Locate your device** feature within the user portal click **Always Allow**.

After completing the prior step your **Corporate Email, Contacts, Calendar items and Notes** will begin syncing to your device. The time in which this occurs will vary depending device model and connection speed. Please be patient.

*Congratulations! You are now ready to securely access email & applications on your device.*
